1.0 | Maintenance & Repair Plan Platinum Terms & Conditions

1. What the Plan provides

The Maintenance and Repair Plan (the Plan) provides a Maintenance Inspection at the start of each one-year period that the Plan lasts, plus connected Maintenance. Full detail is set out in section 6: Our responsibilities under the Plan.

The Periodic Maintenance Inspection must be carried out before our Maintenance and other obligations apply for the year in question.

The Plan is designed to provide Maintenance of those parts not usually covered in standard periodic service schedules and not expected to incur wear and tear in the normal use of the vehicle, therefore giving you extra peace of mind. The parts maintained are detailed in the Maintenance Inspection Checklist.

Maintenance is not included in the circumstances set out in section 8: What the Plan does not provide.

If you fail to keep the vehicle serviced in accordance with the manufacturer's requirements, then any repairs required as a result will not be covered under the Plan.

The agreement is limited to the maintenance of each included part on only one occasion during the period of the agreement.

The full detail of what the Plan does and doesn't

provide is set out in this document. Please read it carefully to ensure that you understand the details of the Plan and how to use it as set out in Section 4: How to use the plan.

The terms and conditions of this Plan cannot be changed except with our specific written agreement.

This is a service contract and not an insurance policy.

In this Plan we/us/our refers to the Provider and the Administrator for ease of reference. Please use the contact details above should you need to contact us.

4. How to use the Plan

▶ The first inspection will be completed immediately at the start of this Plan and you will be provided with a completed checklist.

Periodic Inspections and Making a Maintenance Request

▶ If your vehicle requires Maintenance under the Plan, or to arrange your subsequent Periodic Maintenance Inspections, contact your supplying dealer in the first instance. If your supplying dealer has no repair facilities or it is impractical to return your vehicle to them, please visit www.rac.co.uk/warrantyclaim to find a local repairer.

▶ Do not proceed with Maintenance or repairs until the request has been authorised by us. It is your responsibility to ensure the supplying dealer or approved repairer calls us for an authorisation number before any work is started.

▶ The repairer must telephone the Administrator on 0330 100 3728 and obtain a repair request authority number.

▶ On completion of the work, please arrange for us to be sent the repairer's invoice quoting the Plan number.

▶ The Administrator may authorise Maintenance or repairs immediately; call for other estimates; nominate another

repairer; investigate the Maintenance or repair request further; insist on the use of factor or pattern parts; exchange or remanufactured units; or appoint an independent assessor to inspect the vehicle.

- › In giving authorisation for Maintenance or repairs, we will assess repair times in line with Autodata (or equivalent industry standard) recommended repair or service times and hourly labour rates at a maximum of £45 per hour (outside the M25 circle) and £65 per hour (within the M25 circle).

5. Duration of the Plan

The Plan begins from the later of

- › the date of the acceptance of your completed application for the Plan; or
- › expiry of the manufacturer's warranty on your vehicle.

The Plan begins and ends on the date shown in the Schedule.

6. Our responsibilities under the Plan

We will meet our responsibilities under the Plan within a reasonable time unless it is impossible for us to do this because of circumstances outside our reasonable control.

We accept responsibility for the quality of all Periodic Maintenance Inspections, Maintenance and repairs which are carried out on our behalf under the Plan.

This Plan is for inspecting, maintaining and repairing your vehicle and includes:

Periodic Maintenance Inspection – One Maintenance inspection of your vehicle at the start of each one-year period that the Plan lasts. Please read the attached Maintenance Inspection Checklist and Included Parts for listed items and full details.

If the Maintenance Inspection reveals a problem, the supplying dealer or an approved repairer may tell you what work is needed which is included under the Maintenance section of the Plan and tell you what other work is required or recommended that is not included under the Maintenance section of the Plan and what it may cost you if you decide to have the work done at your own expense.

Maintenance

- › Labour and parts costs for repairs to maintain your vehicle if an Included Part fails to perform its function up to the repair value shown in your Validation Form. This Maintenance can take place:
 - at the time of your normal servicing of the vehicle in accordance with the

manufacturer's recommendations; or

- at any other time if an Included Part fails to perform its function

- › The Maintenance will be limited to labour and parts costs up to the repair value shown in your Validation Form for each occasion on which Maintenance is provided
- › The Plan will also provide Maintenance while the vehicle is being used in other parts of the European Economic Area (EEA) as long as the vehicle is not used outside the UK for more than 60 days in any 12-month period during the Duration of the Plan. Any Maintenance required in these circumstances is subject to our prior authorisation (see making a Maintenance & repair request below).
- › If Autodata or equivalent recommended repair time is over 8 hours and we cannot resolve the matter in any other way, we may at our discretion contribute up to £50 per day for any excess time authorised repairs take for alternative appropriate transport arranged by you for a maximum of 7 days. You will be reimbursed on receipt of a car rental agreement from a VAT registered business providing car hire.

- › lack of normal and proper care in using your vehicle, including the incorrect use of fuel or grade of oil;
- › any act, omission or negligence by you (or any user of your vehicle), which adds to the loss or damage;
- › circumstances where it is reasonable for us to conclude that the need for Maintenance:
 - has been caused by your failure to take preventative steps or notify us after the initial failure of a component;
 - due to parts which are not Included Parts under this Plan;
 - arises from incorrectly fitted parts; or
 - arises from the failure of a component identified in the initial Maintenance inspection
- › weather conditions which are the direct cause of the need for Maintenance including water ingress;

- › If your vehicle shows imminent signs of failure of parts or breakdown, do not continue to use it. This may cause greater damage which will not normally be covered by the Maintenance Plan.

10. Cancellations & Refunds

We will provide a partial refund in respect of any one-year period of the plan in which no maintenance inspection has taken place and either:

- › Your vehicle has been written off and is no longer able to be used, or
- › If you become disabled after the start of the Plan which means you are no longer

able to drive your vehicle or if you die whilst the Plan is in force and the vehicle is no longer used during the Plan period. In this instance, the refund will be paid to your beneficiary.

- › If you have been provided the Plan free of charge, no refund will be due
- › We will cancel the Agreement if you fail to provide us with the necessary information or knowingly provide incorrect information which affects our ability to provide a service to you. In such cases no refund will be due (see section 14: Misinformation & Fraud).
